ABOUT ME

My name is Muhammed. I was born on August 21, 2000, in Altındağ district of Ankara. I graduated from Mustafa Kemal Vocational and Technical Anatolian High School, Nursing Assistant program. I am a Mechanical Engineering student at Atatürk University, but my military service is deferred until January 2029, and I am currently looking for a job.

I work diligently and with determination, I aim to learn new things, and I enjoy getting along well with those around me. I am good at teamwork and leading teams.

My work history, certifications, skills, and abilities are as follows:

THANK YOU LETTERS

I was deemed eligible for two letters of appreciation sent to the Ministry of Health regarding my work at the Martyr Sait Ertürk State Hospital during the 2017-2018 period. I have the documentation for both.

PROJECTS

While working at adidas, I had my name included in the Quarterly Internal Trainer story and also in adidas' globally published Q3 magazine, representing Türkiye as a success story. I'm also involved in the mobile gaming industry. I work on level design, coding, and animation, as well as game scenario ideas, stories, and visual enhancements. I'm working on the development and design of a game called Case Files.

My current motto is: Consume, produce.
